

CONCENTRATED NITRIC ACID (98%, 72% & 68%)

Specifications:

Nitric Acid (HN03)	% by wt. min.	98.5
Sulphuric Acid (H2SO4)	% by wt. max.	0.2
Nitrous Acid (HN02)	% by wt. max.	0.02
Chloride as Cl	% by wt. max.	0.01

Packing:

Aluminium or Stainless Steel tankers. Also available for sale in concentration of 68-72 % for domestic markets and exports.

Uses:

1. Organic synthesis (Dyes/Drugs/Explosives, Cellulose nitrate, nitrate salts).

2. Photo engraving.
3. Metallurgy.
4. Etching steel
5. Ore floatation.
6. Medicine.
7. Preparation of nitro compounds.
8. Oxidizer in liquid rocket propellants.

Industries Served:

Explosives, Dyes, Drugs, Pharmaceuticals, Acrylic Fibre
